

Manual de utilizador

Emissão do documento
Europass Mobilidade

Introdução

Este manual tem como função ajudar as instituições portuguesas a emitir o documento Europass Mobilidade para os seus candidatos. Este manual contém todos os passos a partir do momento da inscrição na plataforma até à emissão do documento.

O que é o Europass?

O Europass é um conjunto de cinco documentos, que pretendem apresentar as qualificações e competências do seu titular de uma forma clara e facilmente compreensível na Europa.

O que é o Europass Mobilidade?

É um documento reconhecido em todos os países da União Europeia, países do Espaço Económico Europeu e países candidatos à adesão. Permite registar formalmente qualquer período de tempo passado pelo seu titular noutro país europeu, para efeitos de educação ou formação profissional (percurso europeu de aprendizagem): um estágio numa empresa; um período de estudos ou uma colocação voluntária numa ONG.

Para que serve esta plataforma?

Esta plataforma digital pretende facilitar a emissão do documento Europass Mobilidade para os participantes de um período de aprendizagem, de formação profissional ou de voluntariado realizados num dos países elegíveis, no âmbito de um projeto acordado entre instituições para a inscrição de titulares no Europass. Deve ser emitido um documento por mobilidade

Como inicio o processo?

O 1º passo é fazer a inscrição da instituição. A plataforma encontra-se disponível na página inicial do site Europass – www.europass.pt. Para se inscrever clique na opção “To registration”.

This application is hosted by the National Europass Centre.

Apply for Europass Mobility - background information

In calling for Europass Mobility documents, the sending organisation undertakes to use the Europasses exclusively for the named persons (beneficiaries) in accordance with the quality criteria defined in the Council Decision dated 15 December 2004. (Council Decision as PDF: <http://www.europass.pt>.) The quality criteria to be taken into consideration are the following:

- **Written agreement between the home organisation and the host organisation:** on the content, purpose and duration of the stay abroad. This condition does not apply to periods of learning undertaken by individual persons without the involvement of a home institution. This exclusively affects the following types of schemes: visits and exchanges, assistantships, continuing training for educational staff as part of the GRUNDTVIG Programme; COMENIUS assistantship periods, the bilateral foreign language assistant programmes and EU study visits for educational and vocational education and training specialists. In such cases, the Europass is authorised by the signature of the host organisation.
- **Linguistic preparation:** A prerequisite in the case of the periods of learning for individual persons stated above is that such persons are in possession of appropriate linguistic knowledge or else arrange for language preparation themselves.
- **Provision of support abroad by a mentor:** A mentor will be available to support the participants during their period of stay abroad. The mentor will offer practical support as well as act as a contact person for linguistic support.
- **Compliance with the geographical scope of application:** 31 countries for participants in Community programmes (EU member countries, Norway, Iceland, Liechtenstein (EEZ), Bulgaria, Romania, Turkey); 28 countries for non-programme arrangements (EU + EEZ countries).

These quality criteria are satisfied in the case of approved projects as part of EU Community programmes or national bilateral programmes (DFJW, DFS, BAND, Training Bridge, Gj?r Det).

The beneficiaries are a) doing a placement or learning stage abroad in accordance with the approved Community or national bilateral programmes, or b) being sent on an individual basis by the sending or applicant organisation.

Each Europass Mobility contains a document number and an original code for each document. These define each individual Europass Mobility and make it traceable. By making a request for delivery of Europass documents, the organisation declares that it is prepared to identify, upon request, the participants who have received the Europass Mobility; and that it will be available for written queries, appraisals and evaluations in the form of questionnaires, or verbally in the form of interviews. The European Commission and the NEC (National Europass Center) are entitled to check that these criteria are being observed and to intervene in the case of misuse.

A request for delivery of these documents constitutes agreement to the procedure described above.

☐ I accept the conditions listed above concerning the application for a Europass Mobility and I hereby confirm that I have already obtained the consent of the beneficiaries to submit their personal data.
